Education

2021–Present	Ph.D. in Economics, The University of Texas at Austin
<i>Supervisors: Olivier Coibion (Co-chair), Stefano Eusepi (Co-chair), Christoph Boehm</i>	
2018–2020	M.A. in Economics, Keio University, Japan
2014–2018	B.A. in Economics, Keio University, Japan

Research Interests

Macroeconomics, International Macro and Finance, Monetary Policy, Expectations Formation, Behavioral Macro

Work in Progress

Exchange Rate Disconnect with Disagreeing Arbitrageurs

Job Market Paper

I investigate the disconnect between exchange rates and macroeconomic fundamentals through the lens of heterogeneous beliefs. I develop a two-country general equilibrium model in which international arbitrageurs disagree about future exchange-rate dynamics. Their disagreement generates a novel endogenous deviation from uncovered interest parity (UIP), which I call the wealth-share disagreement wedge. Calibrated using survey data on exchange rate expectations, the model quantitatively accounts for several key dimensions of the macro–exchange disconnect.

Stock Market Uncertainty and Firm Matching

Joint with Husang Kim and Kai Wu

- Uses universe of Chinese VAT invoices data and exploits the 2015 stock market turbulence as a natural experiment
- Documents contraction in B2B transactions for firms that were more exposed to stock market uncertainty
- Develops a frictional matching model with stock prices as noisy signals

Disagreement, Monetary Policy, and Term Premia

Joint with Stefano Eusepi and Bruce Preston

- New Keynesian model with heterogeneous beliefs and short/long bonds
- Explores stability and determinacy of the model in the presence of heterogeneous beliefs
- Aims to capture time-varying term premia

Work in Progress (continued)

Attention and Disagreement over the Business Cycle

Second-year paper award

- Asks why attention and disagreement are positively correlated, focusing on output growth expectations
- Reveals the important role of time-varying volatility of output growth process

Using Exchange Rate Variation for Estimation

Joint with Christoph Boehm and Husang Kim

Pre-Ph.D. Publication

Sample Sensitivity for Two-Step and Continuous Updating GMM Estimators

Joint with Taisuke Otsu

Economics Letters (2021)

Relevant Experiences & Positions

2026	Thomas J. Sargent Dissertation Fellowship at the Federal Reserve Bank of San Francisco
2025	Dissertation Internship at the Federal Reserve Bank of Cleveland
2025	RA for Professor Oliver Pfäuti
2024–Present	RA for Professor Christoph Boehm
2024	Summer Internship at IMF
2023	RA for Professor Stefano Eusepi
2023	Visiting researcher at Keio University
2021–2024	TA for Intro to Micro, Macro Theory, Advanced Micro, Computational Economics

Fellowships & Awards

2026	MFR Program Summer Session for Young Scholars (Invited attendee)
2024, 2025, 2026	UT Austin Summer Research Fellowship
2024	NBER Behavioral Macro Bootcamp (Invited attendee)
2023	Best Second-Year Paper Award
2023–2026	JASSO Scholarship for Graduate Studies
2021–Present	Graduate Fellowship (UT Austin)
2021–2023	Japan-IMF Scholarship Program for Advanced Studies

Presentations

2026	Federal Reserve Bank of San Francisco (x2), MFR Program Summer Session for Young Scholars (poster, scheduled), Texas Macro Job Candidate Conference (scheduled)
2025	Federal Reserve Bank of Cleveland, UT Austin, Waseda University

Citizenship

Japanese citizen, F1 visa

Language

English (fluent), Japanese (native), Chinese-Mandarin (beginner)
